**Oracle Business Intelligence – Data Sheet**

Oracle Business Intelligence

What is OBIA?

Oracle Business Intelligence Applications (OBIA) is an out-of-the-box, pre-built business intelligence solution that delivers succinct reporting and data warehouse results throughout your organization.

Solution Offerings

- End-to-end implementations
- Upgrades
- Migrations
- Health checks, enablement, and adoption
- Espresso Shot installations: PoCs, single-instance, etc.
- MeasureIT (OBIA in a day)

Project Framework and Methodology

Discover New Insights

- Gain a full-scale view of your business in one place with stunning visual analytics.
- Configure OBIA to your specific business needs for more accurate and comprehensive results.
- Data can be utilized from a broad range of sources: PeopleSoft, Siebel, Oracle Fusion Cloud, Oracle EBS, and more.

Discovery → Project Management → Architecture and Strategy → Dev and Deploy → Training → Maintenance

Enterprise BI Architecture → Tool Standardizations → Data Archival And DW → Report Classifications → Integration → Security → Self Service Framework

INFOLOB

End-to-end Implementation
